REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicant argues "Applicant notes, with appreciation, identification of potentially distinguishing subject-matter. See, Final Office Action, page 11, bottom. Applicant has amended claims 1 and 8 in **accordance with the comments at pages 11-12** of the Final Office Action regarding the "realign bit" used in conjunction with the fetch bit. As noted at the bottom of page 11 of the Final Office Action, the amendments to claims 1 and 8 are supported at least by the disclosure at paragraphs 73 and 84 of Applicant's published application. It is believed that the amendments to claims 1 and 8 overcome the prior art-based grounds for rejection set forth in the Final Office Action."

The examiner agrees for the following reasons. The Miller reference disclosed using a compiler inserted bit element 117 in figure 3 to determine if a current instruction is at the end of a memory line or not. The claimed limitations now require two compiler inserted bits (i.e. fetch bit and realign bit) that perform different tasks. The fetch bit allows for fetching the next memory line for executing an instruction in the current memory line. The realign bit allows for current instruction to be signaled as the last instruction in the current memory line and that the next instruction exists in the next instruction line. Miller failed to teach these two compiler inserted bits to assist in properly detecting and fetching instructions in memory lines. Additionally, an updated prior art search has been performed that hasn't resulted in any additional prior art. Thus, the claims are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JACOB PETRANEK whose telephone number is (571)272-5988. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Chan can be reached on (571) 272-4162. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
